| Milestones |
| :--- |
| At the end of |
| Year 2 |

1:1 Memory Box
1:2 Enchanted
Woodland
1:3 Rio de Vida
1:4 Land Ahoy!
1:5 Paws, Claws
and Whiskers
1:6 Fish, Fins and Gills

2:1 Dinosaurs
2:2 Towers, Turrets, Tunnels
2:3 Bright
Lights, Big City
2:4 Moon Zoom!
2:5 The Scented Garden
2:6 Bounce

## Science

Working Scientifically covered in science lessons over the year
During years 1 and 2, pupils should be taught to use the following practical scientific methods, processes and skills through the teaching of the programme of study content:

- asking simple questions and recognising that they can be answered in different ways
- observing closely, using simple equipment
- performing simple tests
- identifying and classifying
- using their observations and ideas to suggest answers to questions
gathering and recording data to help in answering questions.

## Plants

- identify and name a variety of common wild and garden plants, including deciduous and evergreen trees (2.5, 1:2)
- identify and describe the basic structure of a variety of common flowering plants, including trees. (2.5)
- observe and describe how seeds and bulbs grow into mature plants (2:5)
- find out and describe how plants need water, light and a suitable temperature to grow and stay healthy. (2:5)

## Animals including humans

- identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals (1.5, 1.6, 2.1)
- identify and name a variety of common animals that are carnivores, herbivores and omnivores (2.1)
- describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets) $(1.6,2.1)$
- identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense. (2.6)
- notice that animals, including humans, have offspring which grow into adults (2.6)
- find out about and describe the basic needs of animals, including humans, for survival (water, food and air) (1.5)
- describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene. (2:6)

## Everyday materials

- distinguish between an object and the material from which it is made (1.4, 2.4)
- identify and name a variety of everyday materials, including wood, plastic, glass, metal, water, and rock (1.4)
- describe the simple physical properties of a variety of everyday materials (1.4)
- compare and group together a variety of everyday materials on the basis of their simple physical properties. (2:4)
- identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses (2:4)
- find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching. $(2: 4,1.4)$

## Seasonal changes

- observe changes across the four seasons (1.3)
- observe and describe weather associated with the seasons and how day length varies. (1.3)

## Living things and their habitats

- explore and compare the differences between things that are living, dead, and things that have never been alive(1:5)
- identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other (1:5)
- identify and name a variety of plants and animals in their habitats, including microhabitats (2:5)
- describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food. (1.5)

| Milestones | Science |
| :---: | :---: |
| At the end of Year 4 | Working Scientifically covered in science lessons over the year <br> - asking relevant questions and using different types of scientific enquiries to answer them <br> - setting up simple practical enquiries, comparative and fair tests |
| 1:1 Pharaohs <br> 1:2 Burps, Bottom and Bile | - making systematic and careful observations and, where appropriate, taking accurate measurements using standard units, using a range of equipment, including thermometers and data loggers |
| 1:3 Potions | gathering, recording, classifying and presenting data in a variety of ways to help in answering questions |
| 1:4 What the Greeks did for us? <br> 1:5 Road Trip USA | - recording findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables |
| 1:6 Predator | - reporting on findings from enquiries, including oral and written explanations, displays or presentations of results and conclusions |
| 2:1 Scrumdiddlyumptious <br> 2:2 Mighty Metal <br> 2:3 I am Warrior <br> 2:4 Tremors <br> 2:5 Traders and Raiders <br> 2:6 Blue Abyss | - using results to draw simple conclusions, make predictions for new values, suggest improvements and raise further questions |
|  | - identifying differences, similarities or changes related to simple scientific ideas and processes |
|  | - using straightforward scientific evidence to answer questions or to support their findings. |
|  |  |
|  | Plants (1:6) |
|  | - identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers (1:6) <br> - explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant (1:6) <br> - investigate the way in which water is transported within plants(1.6) <br> - explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal. (1:6) |
|  | Animals, including humans (1:2, 1:6, $2: 1 \& 2: 5$ ) |
|  | - identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat ( 2:1) identify that humans and some other animals have skeletons and muscles for support, protection and movement. (2:5) <br> - describe the simple functions of the basic parts of the digestive system in humans (1:2) <br> - identify the different types of teeth in humans and their simple functions (1:2) <br> - construct and interpret a variety of food chains, identifying producers, predators and prey. (1:6) |
|  | Rocks (2:4) |
|  | - compare and group together different kinds of rocks on the basis of their appearance and simple physical properties (2:4) <br> describe in simple terms how fossils are formed when things that have lived are trapped within rock (2:4) <br> recognise that soils are made from rocks and organic matter (2:4). |
|  |  |

|  | - recognise some common conductors and insulators, and associate metals with being good conductors. (1:5) |
| :---: | :---: |
| At the end of Year 6 <br> 1:1 Alchemy Island 1:2 Peasants, princes and pestilence 1:3 ID <br> 1:4 Off with her Head! <br> 1:5 Darwin's Delights <br> 1:6 Hola Mexico! <br> 2:1 Revolution <br> 2:2 Into the Unknown <br> 2:3 Tomorrow's World <br> 2:4 Stargazers <br> 2:5 Scream Machine <br> 2:6 A Child's War | Working Scientifically covered in science lessons over the year <br> - planning different types of scientific enquiries to answer questions, including recognising and controlling variables where necessary <br> - taking measurements, using a range of scientific equipment, with increasing accuracy and precision, taking repeat readings when appropriate <br> - recording data and results of increasing complexity using scientific diagrams and labels, classification keys, tables, scatter graphs, bar and line graphs <br> - using test results to make predictions to set up further comparative and fair tests <br> - reporting and presenting findings from enquiries, including conclusions, causal relationships and explanations of and degree of trust in results, in oral and written forms such as displays and other presentations <br> - identifying scientific evidence that has been used to support or refute ideas or arguments. <br> Living things and their habitats (1:5) <br> - describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird <br> - describe the life process of reproduction in some plants and animals. <br> - describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including microorganisms, plants and animals <br> - give reasons for classifying plants and animals based on specific characteristics. <br> Animals, including humans (1:5, $1: 2,1: 3,1: 4)$ <br> - describe the changes as humans develop to old age. <br> - identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood <br> - recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function <br> - describe the ways in which nutrients and water are transported within animals, including humans. <br> Properties and changes of materials (1:1) <br> - compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal), and response to magnets <br> - know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution <br> - use knowledge of solids, liquids and gases to decide how mixtures might be separated, including through filtering, sieving and evaporating <br> - give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, wood and plastic <br> - demonstrate that dissolving, mixing and changes of state are reversible changes <br> - explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda. <br> Earth and space (2:4) <br> - describe the movement of the Earth, and other planets, relative to the Sun in the solar system <br> - describe the movement of the Moon relative to the Earth <br> - describe the Sun, Earth and Moon as approximately spherical bodies |
